

87 AUG 1986

Commissioner Mathis
Attention: John Hight
Director of Demolition
Department of Inspection Services
Room 900
City Hall
Chicago, Illinois 60602

RE: A-Chem Corporation

Dear Mr. Hight:

This is to inform you that the United States Environmental Protection Agency (U.S. EPA) has completed all of its activities at the A-Chem Corporation site on Western Avenue in Chicago. Mr. Stephen Browning, the U.S. EPA person in charge of the A-Chem Corp. activities, has informed me that the remaining drums of hazardous waste were removed from the site on August 14, 1986. These were removed from the south room of the A-Chem building. Cleaning and decontamination activities in the north room of the building have been completed as well. Finally, approximately ten plastic bags of disposable clothing were to be removed from the site on August 20, 1986. These activities conclude all of those activities contemplated by the U.S. EPA on the A-Chem site.

If you have any questions relating to this matter, please do not hesitate to contact Mr. Browning at 886-1960, or me 886-6595.

Very truly yours,

Roger Grimes
Assistant Regional Counsel

bcc: Steve Browning (5HR-11)
